nipissing district developmental screen

The Nipissing District Developmental Screen (ndds) is an innovative developmental screening tool that follows a child from one month of age to six years. It provides a snapshot of a child's development to discuss with parents. The simple one-page checklist also features a detachable sheet of activities for enhancing a child's development.

Easy-to-use As a simple one-page checklist with convenient ves/no questions and no scoring, the ndds only takes minutes to complete.

Comprehensive Across 13 ages, the **ndds** explores a child's development in the following areas:

Affordable The ndds is a not-for-profit organization focused on making the screen widely available to health/child care professionals and parents. It can be purchased as a package or by individual

Culturally sensitive All items with cultural considerations are clearly marked to ensure every child is screened fairly and accurately.

Multilingual The ndds is currently available in English, French, Spanish, Vietnamese, and Chinese.

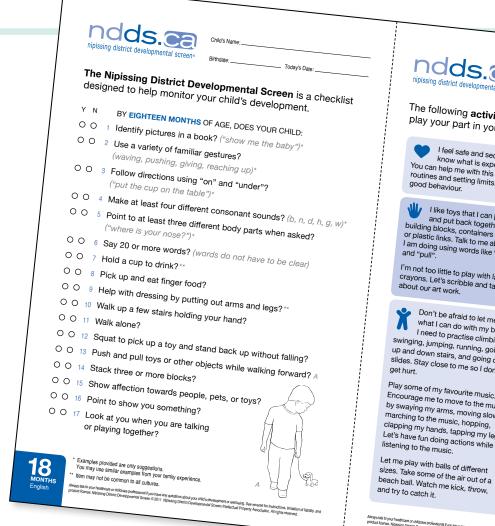

Kev Developmental Stages

The ages covered by the ndds coincide with most immunization schedules, providing a convenient reminder for parents.

Encourages interaction

Use of the **ndds** creates opportunities for discussion with the family about their child's development.

Includes activities Each screen features a detachable sheet of activities to enhance a child's development. Each activity is coded with an icon representing a primary area of development including emotional, fine motor, gross motor, learning and thinking, self-help, social, and communication.

Play some of my favourite music.

Encourage me to move to the music

by swaying my arms, moving slowly,

clapping my hands, tapping my legs.

marching to the music, hopping,

Let's have fun doing actions while

listening to the music.

Enhanced 18 Month Well-Baby Visit

The Enhanced 18 Month Well-Baby Visit is an initiative by the government of Ontario to allow health care professionals an opportunity to better support the healthy development and well being of Ontario's children.

The **ndds** was chosen as one of the standardized tools for the Enhanced 18 Month Well-Baby Visit to support discussions with parents on child development.

The **ndds** is completed in three easy steps:

see if I will imitate you. Encourage me

I like simple puzzles with two to four

pieces and shape-sorters with simple

shapes. Encourage me to match the

I enjoy exploring the world, but I need

to know that you are close by. I may

cry when you leave me with others,

so give me a hug and tell me you will

I may get ear infections. Talk to my

doctor about signs and symptoms.

pieces by taking turns with me.

by smiling and clapping.

- 1 Choose the screen that matches the child's age.
- 2 Complete the checklist.
- 3 Follow-up with detailed discussion and referrals if warranted.
